DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 2-4 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification fails to support the step of **pre-recording a first speech portion of a telephone call received by an agent and said first speech portion is determined to whether or not a monitoring condition is met.** What the Applicant's specification disclosed on page 26, lines 21-23 or throughout the specification is to monitoring the level of nervousness of a person and to including an alarm when it is set off to trigger a recording device to **begin** recording the conversation. The Applicant's specification is silent on a portion of the conversation is pre-recording and that portion is tested before a second portion is recorded.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 2-4 are rejected under 35 U.S.C. 102(e) as being anticipated by Elazar (U.S. Patent No. 6,542,602).

It should be noted that the effective date of the new claimed invention is the date of amendment filed on January 27, 2004 since support for all claimed limitations are not found in the specification as originally filed.

Regarding claims 2-4, see column 3, line 50 through column 4, line 30.

Response to Arguments

5. Applicant's arguments filed Jan. 27, 2004 have been fully considered but they are not persuasive. Examiner agrees with Applicant in summary Applicant's specification (page 25, line 29 to page 26, line) as stated on page 8 of amendment filed Jan. 27, 2004. However, Applicant's specification fails to support what the Applicant claimed per claims 2-4 in which a portion of conversation is **pre-recorded** prior to that portion is tested whether or not to meet the monitoring condition. Applicant's specification including monitoring a conversation for the level of nervousness of a person is different with the Applicant's new claimed invention including pre-

recording a portion of conversation and using said portion to determine whether or not said portion satisfying the monitoring condition.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,
